CHICAGO TUBE & IRON

BENDING &
FABRICATING
MATERIALS
SINCE 1914

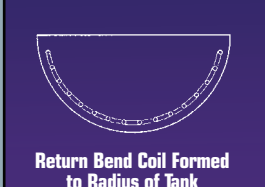

Box-Type Return Bend Coil

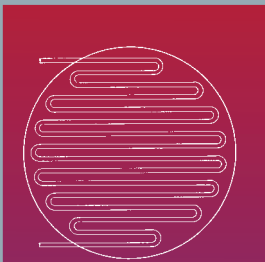

Cylindrical Spiral Coils

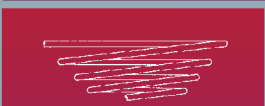

Coils for Horizontal Tanks

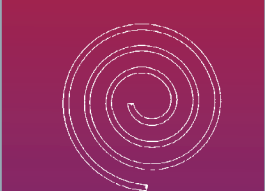

Return Bend Coil Formed to Radius of Tank

Flat Return Bend Coil for Vertical Tank

Conical Coil

Flat Spiral Coil

Chicago Tube and Iron Company is one of the largest distributors of tubing, pipe, valves and fittings in the USA. Since 1914, CTI has been providing our customers with quality products and services at competitive prices. We offer multiple services and each location under the CTI umbrella has its' own line of equipment and capabilities. However, three locations in particular (Chicago, North Carolina and Minnesota) were built for the purpose of fabricating parts for our customers.

Combined, these plants can provide our customers with production cutting, bending, coiling, fabricated pipe and tube parts for all types of industry, such as: heavy equipment, food processing, steel mills, tank farms, chemical plants, construction applications, boilers, ornamental fixtures and many more. Other services include beveling, notching, grooving, welding (code and non-code), x-ray, hydro testing, air under water and drilling are available.

If you're looking for an experienced supplier who can offer you all of the above along with an extensive pipe and tubular inventory, then call Chicago Tube and Iron. We've been providing U.S. markets with the steel products required to build our nation since 1914.

CNC Bending to 8" Schedule 80 Pipe

Fabricated rectangular tube with punched holes

1" Sch 80 x 50 turn spiral steam coil

End prepping stainless tube for welding

2" Sch 80 Inconel 800HT Superheater for High Pressure Air Atomizer

Over fifteen years of operator experience allows us to fine tune pre-determined cut conditions for maximum efficiency and optimum cut finish.

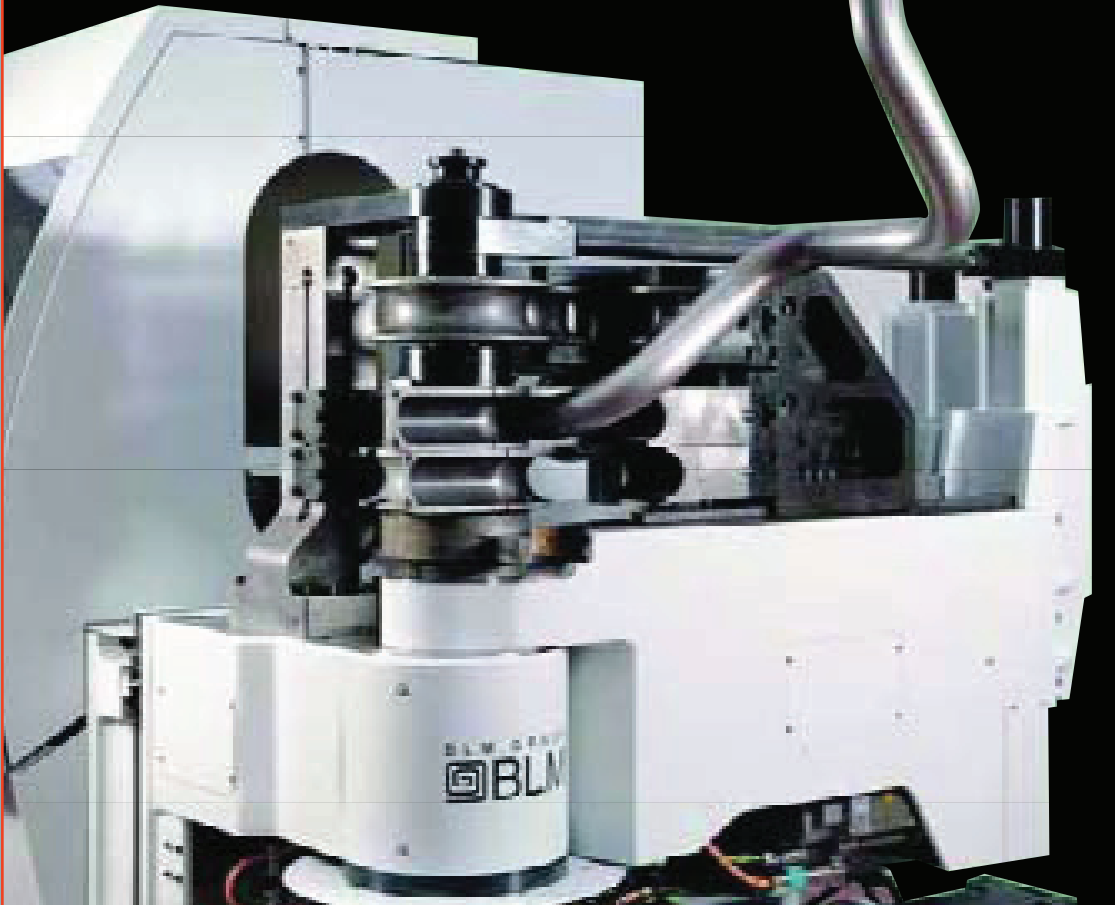

Our Quality Control Department uses state of the art measuring equipment to verify dimensional accuracy and overall part tolerance measurements.

Laser Division
is ISO 9001 certified.

E-BEND

ALL-ELECTRIC, MULTI-TOOL STACK, CNC TUBE BENDER
WITH 3D VISUAL GRAPHIC PROGRAMMING
(VGP-3D) POWERFUL PRECISE BENDING

Production Capabilities

- Coiling
- Bending (hot or cold)
- Welding (code or non-code)
- ASME Stamps "S", "PP", "R"
- Threading & End Finishing
- Hydro Testing
- Air Under Water
- Machining
- Punching, Drilling, & Tapping
- Flaring
- Swaging
- Press Bending
- Laser Tube Processing
- CNC Bending

Production Capacity

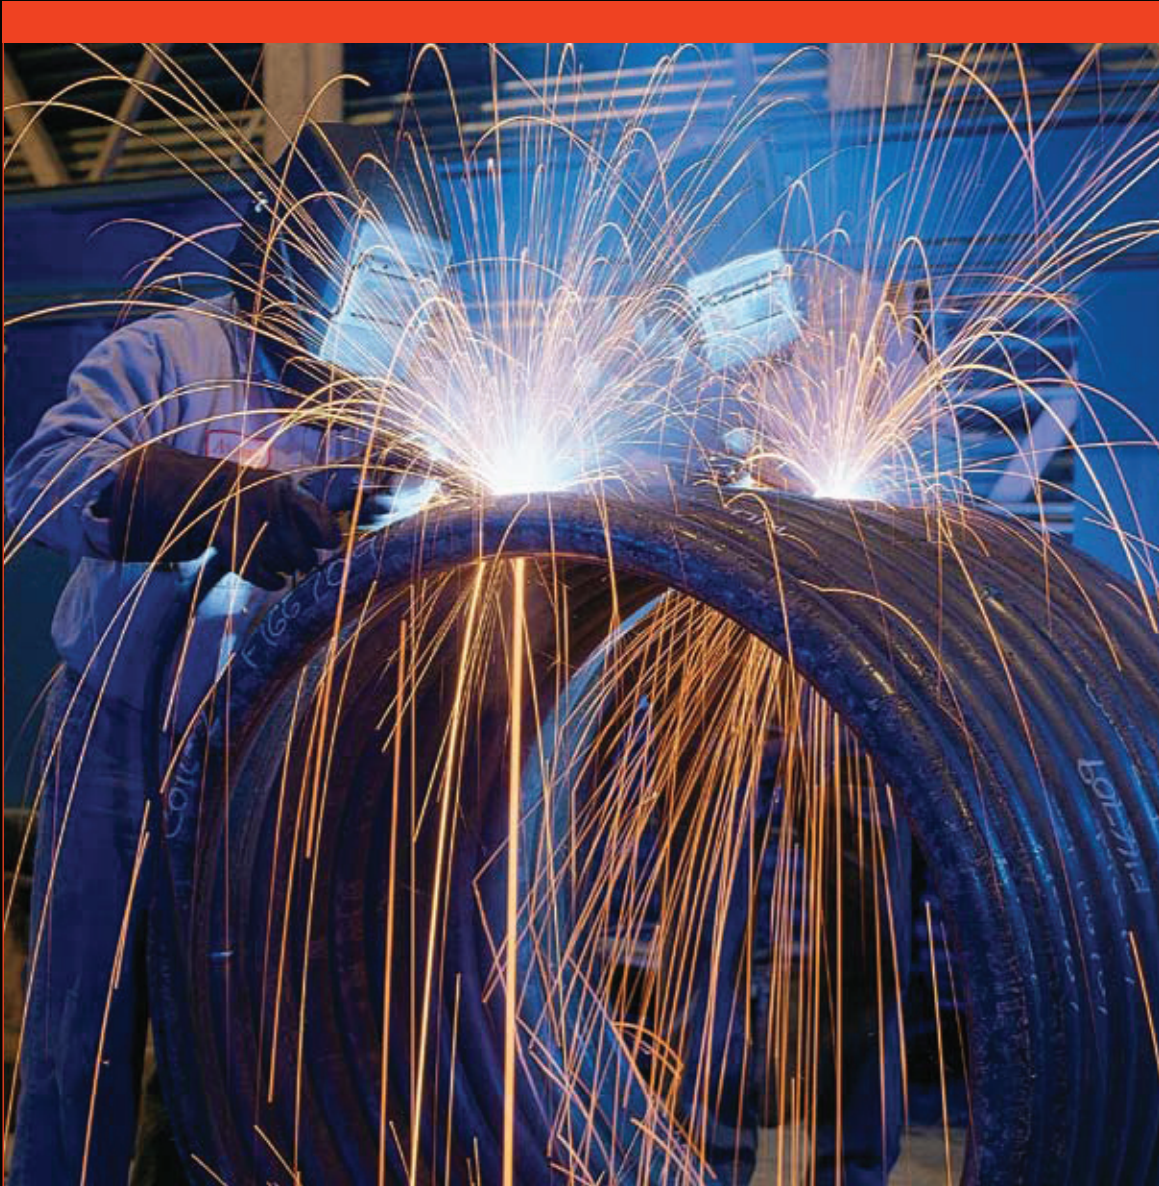

- Pipe - 1/8" to 8"
- Tubing - 1/8" to 4-1/2" OD
- Structural - 6" Maximum
(Beam, Channel, Angle, Bar,
Tee, Rail, Square)

We Bend...Coil... or Fabricate Most Tube & Pipe Products:

- Carbon Steel
- Copper
- Aluminum
- Stainless Steel
- Brass
- Chrome Moly
- Inconel
- Hastloy
- Overlay Materials

Fabricating Parts for all Industries:

Services:

Coiling
Bending (hot or cold)
Machining
Welding (code or non-code)
Hydro Testing
ASME Stamps
"S" "pp" "R"
Swaging
Press Bending
Laser Tube Processing
CNC Bending
