

ANNOUNCEMENT

From: Don McNeeley
President, CEO

As you know, CTI hosts summer interns for a variety of projects. These interns are high school students, college students, or military veterans transitioning to civilian life and the furtherance of their education.

I am pleased to announce that Tiffanee Joly has been appointed Manager of our Internship Program. She will be responsible for the interviewing and hiring of all interns. She will interact with the CTI supervisors who will oversee individual internship workloads and priorities.

Tiffanee is a five year veteran of CTI. Previously, she had a successful 17 year career with Walmart, making her way through the ranks to District Manager. She lives in Essex, Illinois with her husband Bob, and together they have two children, Lindsey and Cody.

Tiffanee will also continue in her primary role as Corporate Quality Administrator, where she will continue to report to Lee Thompson.

Please join me in congratulating Tiffanee on this expanded responsibility.
