

ANNOUNCEMENT

Chicago Tube and Iron Company is pleased to welcome Johanna Hernandez and Tami Santiago to our corporate purchasing department as the two new Purchasing Assistants.

Johanna previously worked in a purchasing department at a cable company. She graduated from Romeoville High School in 2007 and currently resides in the area. In her spare time she enjoys spending time outdoors, listening to music, art, and time with her family.

Tami comes to CT&I with over seven years of industrial based purchasing experience in a manufacturing environment. She loves the outdoors, enjoys nature walks and riding her bike with her children: Daniel 19, DJ 13 and Layla who is 7. She also mentions that since moving to Romeoville, she has driven past CT&I numerous times and always wanted to know what it would be like to work for Chicago Tube. Well, mystery solved!

Please join us in welcoming Tami and Johanna to Chicago Tube and Iron.
