

ANNOUNCEMENT
From Donald McNeeley, Ph.D.
President, CEO

It is my pleasure to announce the promotion of Steve West to Director of Engineered Products. In this position, reporting to Steve will be General Line Fab and Laser in our Romeoville and North Carolina operations. Peter Nance, General Manager of CTI Power, will continue in that very important capacity, now reporting to Steve in an effort to unify the efforts of these two plants in this very difficult market. Steve is an eight-year veteran of Chicago Tube and Iron, who most recently was General Manager of our laser division. However, Steve has a 20-year relationship with CTI going back to his days in Indianapolis at *G&H Diversified*. Steve is a graduate of Iowa State University with a degree in Mechanical Engineering. He and his wife, Karen, are the proud parents of son, Zachary, a US Army Green Beret Veteran, and daughter, Sarah, who is currently pursuing her Master's degree in Social Work and recently married Michael Johnson.
