

ANNOUNCEMENT

Chicago Tube and Iron is pleased to welcome Brad Snyder as the Plant Manager for the Engineered Products – Locust Division.

Brad has a Bachelor of Science degree in Industrial Engineering Technology from the University of Dayton (Go Flyers).

Over the last 10 years Brad has worked for manufacturing companies supplying parts, service and repairs to the power generation and steel processing industries.

Brad and his wife Nancy have an active lifestyle and they enjoy outdoor activities. They actively support Wounded Warriors, World Wildlife Fund and ASPCA. In their spare time they enjoy taking their three rescue dogs on long hikes.

I am excited to have Brad and his expertise as part of the CTI family. Please join us in welcoming Brad to Chicago Tube and Iron!
